# PAINSHIELD QUICK GUIDE

Please read the complete PainShield manual before using the device and pay attention to important warnings.

For maximal effectiveness ensure that the active element is in full contact with clean, hairless and oil-free skin
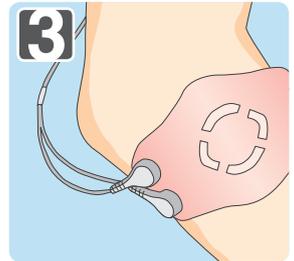

For extended patch usage follow handling instructions on the patch label

Contact snaps

Active element

Small patch

Driver

Large patch

Before applying the patch, the skin should be thoroughly cleaned. Remove the protective liner from the treatment patch, and keep it for storing after use.

Attach the treatment patch to the skin with the adhesive side down over the area where the pain is most intense.

Connect the patch to the device cable using the contact snaps.

4 Press the ON/OFF button on the device for about 2 seconds until beeping sound is heard. The device requires a few seconds to initialize and then displays the information screen.
- When the device is in working or charging modes, it enters the screen saving mode.
- To check the status press shortly on the ON/OFF button.
- The device can be turned off at any time by pressing and holding the ON/OFF button for 2 seconds.
